

# TAYLOR ENGINEERING, INC.

Jacksonville, FL - June 2008

Taylor Engineering has outgrown its current location at Cypress Green Drive and relocated to the Deerwood Park building, remaining on the Southside of Jacksonville, Florida. As many engineering firms downsize due to current market conditions, Taylor Engineering continues to experience steady growth. With a focus on water-related engineering services, the need remains continuous. As the company celebrates 25 years in business, this new 25,000 square foot location provides room to grow and supports their ongoing work in water resources and environmental engineering and geographic information systems.

The company mailing address has changed to Taylor Engineering, Inc., 10151 Deerwood Park Blvd. Bldg. 300, Suite 300, Jacksonville, FL 32256. The company's phone and fax numbers remain the same — 904-731-7040 and 731-9847, respectively.

TAYLOR ENGINEERING specializes in Coastal Engineering, Hydrology and Hydraulics, Waterfront Engineering, and Environmental Services with offices in Jacksonville, West Palm Beach, Tampa, and Baton Rouge, LA. For more information, visit [www.taylorengineering.com](http://www.taylorengineering.com).
