

TAYLOR ENGINEERING, INC.

Jacksonville, FL - September 2009

The Florida Engineering Society (FES) has recognized Terry Hull, P.E. as its 2009 Engineer of the Year.

Mr. Hull has dedicated his 24-year career to the engineering profession and his community. Mr. Hull spent his entire career at Taylor Engineering where he has practiced water resources engineering including coastal and environmental engineering. Now the company's president, he has been instrumental in the company's growth from 5 to over 85 professionals. He led the company's expansion into North Carolina, South Carolina, Texas, and Louisiana; holds active professional engineer licenses in five states; and serves on the company's Board of Directors.

His continuing efforts on behalf of the engineering profession, technical achievements, responsibilities in civic and community service, and personal and professional integrity make Mr. Hull worthy of this prestigious award.

The Florida Engineering Society bestows Engineer of the Year status to the candidate who best exemplifies the ideal image of the Professional Engineer.

TAYLOR ENGINEERING specializes in Coastal Engineering, Hydrology and Hydraulics, Waterfront Engineering, and Environmental Services with offices in Jacksonville, West Palm Beach, Tampa, and Baton Rouge, LA. For more information, visit www.taylorengineering.com.
